Since 2012, Müller Feinblechbautechnik GmbH has distributed customised special stainless steel designs for the pharmaceutical industry under the Müller ReinRaum brand. When it comes to furnishing laboratories and clean rooms, we draw on 20 years of experience. The advantages of Müller ReinRaum at a glance:

- Planning, consulting, building and assembly all from one source
- Own assembly team
- Made in Germany according to GMP guidelines
- Highest quality standards
- Stainless steel production takes place away from corrosive materials
- Our products are easy to clean

This catalogue offers you a brief overview of our wide range of products. Bear in mind that we can deliver almost any customised special design! We are happy to work with you to develop the best possible product for your needs. We look forward to receiving your inquiries!
